DETAILED ACTION

1. Claims 1-7, 9-18, 20-31, 34-36, and 39-40 are pending in the instant application. Applicant's amendment submitted on 3/8/06 has been considered and entered by the examiner. The amendments to independent claims 1, 12, 23, 30, and 36 to incorporate the subject matter indicated allowable in the office action of 8/22/2005 are sufficient to overcome the prior art of record. Accordingly, this application is in condition for allowance.

Reasons for Allowance

2. **Claims 1, 12, and 23** have been amended to include the limitation "*and respectively adding a predetermined increment value to the latency values corresponding to access requests in the request queue having associated queue priorities that are lower than the queue priority of the first access request*", which was indicated allowable in the office action of 8/22/05. This limitation is not taught or suggested by the prior art of record.

3. **Claims 30 and 36** have been amended to include the limitations "*examining whether the latency value associated with the third access request is increased to exceed a predetermined limit if the first access request is to be inserted*" and "*increasing the latency value associated with the third access request by a predetermined incremental value*", which was indicated allowable in the office action of 8/22/05. These limitations are not taught or suggested by the prior art of record.
